Table Runners

The table runner below has a Thanksgiving theme. You may chose any 3 images to use for your table runners. We offer vintage images of all the holidays; Halloween, Thanksgiving, Christmas, Valentines, Easter, and the 4th of July. You may also order images of your state or any of our topics.

Our table runner pattern uses 9 patch designs to create a 16x42 inch runner. The pattern can incorporate both vertical and horizontal 5x8 quilt blocks. Customers buy their own fabric, batting, thread and other supplies, contributing to more sales for your shop.

New Thanksgiving Sets

Thanksgiving is an American holiday that gives thanks for the blessing of the harvest. Thanksgiving postcards from the "Golden Age of Postcards," circa 1900 through 1915, were very popular and a large number were produced and sold.

There were many sets of Thanksgiving postcards by various artists from that period. Ellen Clapsaddle was the most prolific American postcard artist from the "Golden Age" and she created an assortment of holiday sets, including Thanksgiving. Sets number 2, 3 and 4 on this page are by Ellen Clapsaddle. She was an accomplished artist and her paintings of turkeys are among the best ever produced.

We have developed a total of 16 new Thanksgiving sets of quilt blocks this year. Until now our selection of Thanksgiving was very limited. We now have a total of 17 Thanksgiving sets to choose from.

Thanksgiving is a festive time of the year when creative decorating includes centerpieces, place settings, indoor fall wreaths, and more. A popular pattern we offer with our product is a wall hanging set that uses 4 - 4x6 quilt blocks. We offer a number of other free patterns as well (see product list sheet).

The early 20th century Thanksgiving images in our inventory are perfect for creating a traditional holiday theme. Our historical quilt blocks illustrate the holiday traditions as they were celebrated in the past. We recommend ordering some of our holiday quilt blocks.

New Halloween Sets

We are introducing 9 new Halloween sets of quilt blocks this year. This will make a total of 19 Halloween sets in our inventory. Vintage Halloween images from the early 20th century are rare and very collectible. The artwork is some of the finest in the antique market.

One reason we are producing this newsletter is so we can offer you Halloween quilt blocks in time for this holiday. The Fall Market in Houston (which we will not be attending this year) falls on or near Halloween and is not conducive

to placing orders for Halloween. This is a festive time of the year and signals a beginning to the fall holidays. We offer a wide range of vintage Halloween images. Our patterns include wall hangings, tote bags, table runners, ornaments, postcards, hot pads and pillows.

New Santa and Christmas Sets

This year we have developed 7 new Christmas sets and 7 new Santa sets, making a total of 14 new Christmas-related quilt block sets. We now have a total of 19 Christmas sets and 39 Santa sets in our inventory from which to choose. The vintage images that make up these sets of 4 date from the 1880s through the 1930s. They are antique postcards, trade cards, prints, and children's book covers. All of our images are from the "Golden Age of Illustration," a period when many different artists created original artwork for illustrations.

Antique Santas images from the "Golden Age" are among the most collectible on the market today. They are highly sought after and hard to find. Our inventory includes more than 150 individual vintage Santa images to choose from. This is the largest and most comprehensive collection of its kind available as prints on cloth for quilters.
